PA210-1R

PA210
Lower & upper corner applications
210° Indexed sweep
An indexed corner sweep light that generates heavy signals to two sides of the apparatus.

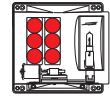

PA180
Front intersection & side applications
180° Balanced sweep
A balanced, full sweep light that generates heavy signals to one side of the apparatus.

PA180H
NFPA upper level rear applications
180° Indexed sweep
An upper level rear, indexed sweep light that generates heavy signals to the side & rear of the apparatus.

PA105
Front intersection & side applications
105° Balanced sweep
A balanced, short arc sweep light that generates an intense signal to one side of the apparatus.

PA-F6 LED Flasher upgrade kit

Field upgrade kit that allows the end user to add stationary LED flashers to existing halogen sweep lights.

Model	Product Description [*] = Lens colors (R,B,C,Y,G,)
PA210-1[*]	Halogen surface mounted corner light (210° sweep) - position 1
PA210-2[*]	Halogen surface mounted corner light (210° sweep) - position 2
PA180H-1[*]	Halogen surface mounted corner light (indexed 180°) - upper rear position 1
PA180H-2[*]	Halogen surface mounted corner light (indexed 180°) - upper rear position 2
PA180-1[*]	Halogen surface mounted light (balanced 180° sweep) - position 1
PA180-2[*]	Halogen surface mounted light (balanced 180° sweep) - position 2
PA105-1[*]	Halogen surface mounted light (balanced 105° sweep) - position 1
PA105-2[*]	Halogen surface mounted light (balanced 105° sweep) - position 2
3/4ADP	3/4" tapered adapter
2ADP	2" tapered adapter
KDP	KD headlight adapter plate
CEP	Spartan Classic adapter plate
PA-F6-1[*]	LED stationary flasher for surface mounted lights - position 1
PA-F6-2[*]	LED stationary flasher for surface mounted lights - position 2
FP-1085	50 Watt vertical filament bulb
FPA-5071	12 volt motor with worm
PA210 Lens	(FP-1015 Red) (FP-1027 Blue) (FP-1028 Clear) (FP-1029 Yellow) (FP-1030 Green)
